## MANNINGTON

**Gardens Destroyed.**  
The rain completely destroyed several gardens in Brookside yesterday, the worst rain and hail storm in years.

**Violin Student.**  
Wanda Raymond made a trip to Fairmont yesterday where she's studying violin under the capable professor, Claude Vincent.

**Backed Off Road.**  
Jack Phillips and friend were driving from Fairmont yesterday and in some way got on the wrong road so in turning around he backed his car over the bank and they were compelled to leave same and come on to town via trolley.

**Likes Mannington.**  
Miss Ernestine Atha who lately moved here from Grafton says she prefers Mannington for her home instead of Grafton.

**Lighting Conductors.**  
The best conductors of lightning, placed in the order of conductivity, are metals, gas coke, graphite, solutions of salts, acids and water. The best non-conductors, ending with the most perfect insulation, are India rubber, gutta-percha, dry air and gases, wool, ebonite, silk, glass, wax, sulphur, resins and paraffin.

AGED DEPENDANTS  
NEGLECTED CLASS  
ON THE B.&O. ROAD

Little Study Has Been Given to Them, Says Charities Expert.

(By Associated Press)  
PITTSBURGH, June 7.—Thousands of worthy old men and women in the United States were pictured as suffering for lack of scientific care and affection at a meeting here of the National Conference of Charities and Correction today. The situation was described by Dr. I. L. Nasher, of New York City, who is one of the leading authorities of the country on the care of the aged. Dr. Nasher said:

"There is probably no class of dependents whose welfare has been more completely neglected, who have received less scientific study and care, than the aged. The child dependent has the world for his guardian; the aged dependent is disowned by his own. So completely has the welfare of the aged as a scientific study been ignored that today there is not a home for the aged, so far as I know, in which the vital problem of the proper feeding of the aged is understood or even considered."

"Yet it has been found that the aged require only about half of the amount of food, calculated in calories or food energy, that young, active individuals require, and the proportions of the three classes of foods are different. The aged require less than half of the protein class the tissue forming food such as meat, cheese and white of an egg. They require about half the amount of carbohydrate or energy producing food. The principal foods of this class are the starchy foods and sugar. Of fat, the heat producing food, they require almost as much as in earlier life."

"The most important of the problems of the institutional care of the aged and the one which has revealed the least consideration, is the utilization of the economic possibilities of the aged institutions. While the is primarily an economic problem, it affects vitally the health and happiness of the inmates. In New York City Farms Colony, which is a branch of the New York City Homes for the Aged and Infirmed, there are about 1,000 inmates, male and female. Every one of these inmates, except those in the infirmary, is employed at some useful occupation. The practical results are: Extremely low cost of maintenance; the inmates are happy and they do not suffer from certain ailments that are due to inactivity and mental depression."

**To Summerfield.**  
Mr. and Mrs. J. H. Rowland and the latter's mother, Mrs. Sarah Cunningham, moved yesterday from the latter's home on Maple avenue to Summerfield bungalow at Hillcrest where they will spend the summer.

SUMMER SCHEDULE  
ON THE B.&O. ROAD

Some Important Eliminations are Shown on the New Card.

Several important changes have been made in the schedule of the Baltimore and Ohio railroad running into and out of Fairmont. Wheeling Division trains, or trains operating between Fairmont and Grafton are affected to the extent that Train No. 2 formerly due here at 3:34 a. m. and Train No. 11 due here at 5:12 a. m. are cut off and Train No. 16 which always left Fairmont for the east at 1:10 p. m. has been changed to an hour earlier.

The curtailment of trains is due to the heavy demand made by the government on the various railroads in the country. The trains running between Fairmont and Pittsburgh and between Fairmont and Clarksburg are competitive. Running against the Baltimore and Ohio to Pittsburgh are the New York Central lines and the Pennsylvania line. Between Fairmont and Clarksburg and on to Weston the Monongahela Valley Traction line runs alongside the B. & O. Because of this competition and because of the many trains now run the Baltimore and Ohio announces that its new schedule will show but three trains daily out of Fairmont toward Pittsburgh. These run at 7:15 a. m., 3:50 a. m. and 11:45 p. m. On the same division coming to Fairmont there will be but three trains one at 6:50 a. m. one at 12:40 p. m. and one at 9:30 p. m. Between Fairmont and Clarksburg the schedule will be: To Clarksburg Train No. 68 at 7 a. m. and No. 70 at 9:42 p. m. Arriving in Fairmont from Clarksburg

HOW TO BE RID OF  
CHRONIC DANDRUFF

The only way to get rid of disgusting, untidy dandruff is to correct its cause. Shampooing merely cleanses the scalp for a few days, then the scales form again as thick as ever. To destroy the dandruff germ and get rid of the dandruff for good, part the hair and apply a little of the genuine Parisian Sage directly on the bare scalp and rub it in until absorbable scalp and rub it in until absorbable. You will surely be amazed at the result of even one application, for your hair and scalp will look and feel 100 per cent. better. Only a few days' massage with Parisian Sage should be needed to destroy the germs that cause dandruff to form. The scalp becomes healthy, the hair will grow better, show more life and vitality and you should no longer be troubled by dandruff. Faded dull or lifeless hair is quickly restored to beauty by this simple process. Parisian Sage can be obtained from Mt. City Drug Co. and druggists everywhere. It is not expensive.

Train No. 69 gets here at 7 a. m. and Train No. 67 at 11:30 p. m. The new schedule will show the following changes:

No. 46—Bellingham accommodation daily at 7:10 a. m.  
No. 50—Mail and accommodation, daily at 10:40 a. m.  
No. 52—Mail and express daily at 12:10 p. m.  
No. 44—Grafton accommodation daily at 5:15 p. m.  
No. 48—Mail and express daily at 9:50 p. m.  
Westbound—  
No. 47—Mail and accommodation, daily at 7:15 a. m.  
No. 43—Mail and express daily at 10:05 a. m.  
No. 49—Mail and accommodation, daily at 1:10 p. m.  
No. 51—Mail and express daily at 4:25 p. m.  
No. 45—Bellingham accommodation at 8:20 p. m.  
**Connellsville Division**
